

Dataset Overview Document

NYSDOS Active Corporations and Other Business Entities

Data Collection: Data was collected by running a SQL query against a database that is used for the Department of State's business entity public search function (http://www.dos.ny.gov/corps/bus_entity_search.html).

Only DOS process / service of process address is required for incorporation. Registered agent is optional. DOS process / service of process addresses may be an individual or corporation designated to handle legal proceedings for the designated corporation and may not have any bearing on the physical address of the corporation or any of its officers.

Names and addresses for the Chairman or CEO and location fields are not collected until the entity's first "biennial statement" which is two year following their initial registration.

Field Name	Field Info	Description
DOS ID	Number(8)	Unique ID number for each corporation.
Current Entity Name	Varchar2(150)	Current name of corporation.
Initial DOS Filing Date	Varchar2(10)	Date of incorporation.
County	Varchar2(15)	County where entity is incorporated.
Jurisdiction	Varchar2(25)	State or country of jurisdiction.
